Subject:	1096 5 & 9 Freese Rd: NYSDOT Response
Date:	Monday, September 21, 2020 11:50:29 AM
Attachments:	1096 Maifly 5 & 9 Freese Rd email 9-18-20.pdf

Good morning Ray,
Attached is DOT's response in regards to their review of SRF's traffic memo agreeing that a full Traffic Impact Study is not required and that no mitigation is required by this project.

DOT also states that DOT is in the process of evaluating the Dryden Road/Freese Road intersection for any necessary improvements.

The plan comments are pretty standard for a preliminary level review by DOT and will be addressed in an upcoming formal submittal to DOT.

Let me know if you have any questions or would like to discuss. Thank you.
