Instructions for Completing Part 1

Part 1 is to be completed by the applicant or project sponsor. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification.

Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information; indicate whether missing information does not exist, or is not reasonably available to the sponsor; and, when possible, generally describe work or studies which would be necessary to update or fully develop that information.

Applicants/sponsors must complete all items in Sections A & B. In Sections C, D & E, most items contain an initial question that must be answered either “Yes” or “No”. If the answer to the initial question is “Yes”, complete the sub-questions that follow. If the answer to the initial question is “No”, proceed to the next question. Section F allows the project sponsor to identify and attach any additional information. Section G requires the name and signature of the project sponsor to verify that the information contained in Part 1 is accurate and complete.

A. Project and Sponsor Information.

<tbody>
<tr>
<td>Construction of a new solar energy farm (ground-mounted photovoltaic system), on a portion of a 114.79 acre parcel located on Dryden Road in the Town of Dryden, Tompkins County, NY. The project is located on the south side of Dryden Road, and will effect approximately 35.0 +/- acres (Endnote 1) with an increase in impervious surface of 0.02 acres. The actual physical ground disturbance is approximately 9.0 acres, and is limited to the installation of the poles on which the panels are located, power line trenching, inverter pad, construction entrance, level spreaders, and temporary road improvements. An existing access road from Ferguson Road will be used for the project and will require temporary improvements for construction activities. Please refer to Topographic Survey and Site Plan in Attachment A.</td>

### C. Planning and Zoning

#### C.1. Planning and zoning actions.

Will administrative or legislative adoption, or amendment of a plan, local law, ordinance, rule or regulation be the only approval(s) which must be granted to enable the proposed action to proceed?

- If Yes, complete sections C, F and G.
- If No, proceed to question C.2 and complete all remaining sections and questions in Part I

#### C.2. Adopted land use plans.

a. Do any municipally-adopted (city, town, village or county) comprehensive land use plan(s) include the site where the proposed action would be located?  
   If Yes, does the comprehensive plan include specific recommendations for the site where the proposed action would be located?  
   If Yes, identify the plan(s):  
   No

b. Is the site of the proposed action within any local or regional special planning district (for example: Greenway Brownfield Opportunity Area (BOA); designated State or Federal heritage area; watershed management plan; or other?)  
   If Yes, identify the plan(s):  
   No

c. Is the proposed action located wholly or partially within an area listed in an adopted municipal open space plan, or an adopted municipal farmland protection plan?  
   If Yes, identify the plan(s):  
   No

Tompkins County Agriculture and Farmland Protection Plan dated June 2015. According to the High Priority Farmland Protection Areas Map on page 76, the project area is not located within a High Priority Farmland Protection Area.
C.3. Zoning

a. Is the site of the proposed action located in a municipality with an adopted zoning law or ordinance? ☐ Yes ☐ No

If Yes, what is the zoning classification(s) including any applicable overlay district?

Rural Agriculture District

b. Is the use permitted or allowed by a special or conditional use permit? ☐ Yes ☐ No

c. Is a zoning change requested as part of the proposed action? ☐ Yes ☐ No

If Yes, what is the proposed new zoning for the site?

C.4. Existing community services.

a. In what school district is the project site located? Dryden School District

b. What police or other public protection forces serve the project site?

Tompkins County Sheriff's Department and NYS Police

c. Which fire protection and emergency medical services serve the project site?

Dryden Fire Protection District and Dryden Ambulance

d. What parks serve the project site?

NA

D. Project Details

D.1. Proposed and Potential Development

a. What is the general nature of the proposed action (e.g., residential, industrial, commercial, recreational; if mixed, include all components)?

b. a. Total acreage of the site of the proposed action? 35.0 acres

b. Total acreage to be physically disturbed? 5.0 acres

c. Total acreage (project site and any contiguous properties) owned or controlled by the applicant or project sponsor? 114.79 acres

d. Is the proposed action an expansion of an existing project or use? ☐ Yes ☐ No

1. If Yes, what is the approximate percentage of the proposed expansion and identify the units (e.g., acres, miles, housing units, square feet)? % ___________ Units:

d. Is the proposed action a subdivision, or does it include a subdivision? ☐ Yes ☐ No

If Yes, purpose or type of subdivision? (e.g., residential, industrial, commercial; if mixed, specify type(s))

ii. Is a cluster/conservation layout proposed? ☐ Yes ☐ No

iii. Number of lots proposed?

iv. Minimum and maximum proposed lot sizes? Minimum ________ Maximum ________

c. Will proposed action be constructed in multiple phases? ☐ Yes ☐ No

1. If No, anticipated period of construction: _____ 3 months

II. If Yes:

• Total number of phases anticipated

• Anticipated commencement date of phase 1 (including demolition) _____ month _____ year

• Anticipated completion date of final phase _____ month _____ year

• Generally describe connections or relationships among phases, including any contingencies where progress of one phase may determine timing or duration of future phases:
f. Does the project include new residential uses?  
   If Yes, show numbers of units proposed.
   
<table>

</tbody>
</table>

   ☐ Yes ☑ No

   g. Does the proposed action include new non-residential construction (including expansions)?  
   If Yes,  
   i. Total number of structures ________  
   ii. Dimensions (in feet) of largest proposed structure: ________ height; ________ width; and ________ length  
   iii. Approximate extent of building space to be heated or cooled: ________ square feet

   ☐ Yes ☑ No

   h. Does the proposed action include construction or other activities that will result in the impoundment of any liquids, such as creation of a water supply, reservoir, pond, lake, waste lagoon or other storage?  
   If Yes,  
   i. Purpose of the impoundment:  
   ii. If a water impoundment, the principal source of the water: ☐ Ground water ☐ Surface water streams ☐ Other specify:
   iii. If other than water, identify the type of impounded/contained liquids and their source.
   iv. Approximate size of the proposed impoundment. Volume: ________ million gallons; surface area: ________ acres
   v. Dimensions of the proposed dam or impounding structure: ________ height; ________ length
   vi. Construction method/materials for the proposed dam or impounding structure (e.g., earth fill, rock, wood, concrete): 

   ____________________________________________________________

   D.2. Project Operations
   a. Does the proposed action include any excavation, mining, or dredging, during construction, operations, or both?  
   (Not including general site preparation, grading or installation of utilities or foundations where all excavated materials will remain onsite)
   If Yes:  
   i. What is the purpose of the excavation or dredging?
   ii. How much material (including rock, earth, sediments, etc.) is proposed to be removed from the site?
      - Volume (specify tons or cubic yards):
      - Over what duration of time?
   iii. Describe nature and characteristics of materials to be excavated or dredged, and plans to use, manage or dispose of them.
   iv. Will there be onsite dewatering or processing of excavated materials?  
   If yes, describe.

   ____________________________________________________________

   v. What is the total area to be dredged or excavated? ________ acres
   vi. What is the maximum area to be worked at any one time? ________ acres
   vii. What would be the maximum depth of excavation or dredging? ________ feet
   viii. Will the excavation require blasting?  
   ☐ Yes ☑ No
   ix. Summarize site reclamation goals and plan:

   ____________________________________________________________

   b. Would the proposed action cause or result in alteration of, increase or decrease in size of, or encroachment into any existing wetland, waterbody, shoreline, beach or adjacent area?  
   If Yes:  
   i. Identify the wetland or waterbody which would be affected (by name, water index number, wetland map number or geographic description): 

   ____________________________________________________________

   Page 4 of 13
ii. Describe how the proposed action would affect the waterbody or wetland, e.g., excavation, fill, placement of structures, or alteration of channels, banks and shorelines. Indicate extent of activities, alterations and additions in square feet or acres:

iii. Will proposed action cause or result in disturbance to bottom sediments?  
If Yes, describe:

iv. Will proposed action cause or result in the destruction or removal of aquatic vegetation?  
If Yes:

   • acres of aquatic vegetation proposed to be removed: 
   • expected acreage of aquatic vegetation remaining after project completion: 
   • purpose of proposed removal (e.g., beach cleaning, invasive species control, boat access):

   • proposed method of plant removal:
   • if chemical/herbicides treatment will be used, specify product(s):

v. Describe any proposed reclamation/mitigation following disturbance:

c. Will the proposed action use, or create a new demand for water?  
If Yes:

   i. Total anticipated water usage/demand per day: ______________________ gallons/day

   ii. Will the proposed action obtain water from an existing public water supply?  
If Yes:

   • Name of district or service area: 
   • Does the existing public water supply have capacity to serve the proposal?  
   • Is the project site in the existing district?  
   • Is expansion of the district needed?  
   • Do existing lines serve the project site?

   iii. Will line extension within an existing district be necessary to supply the project?  
If Yes:

   • Describe extensions or capacity expansions proposed to serve this project:

   • Source(s) of supply for the district:

   iv. Is a new water supply district or service area proposed to be formed to serve the project site?  
If Yes:

   • Applicant/sponsor for new district:
   • Date application submitted or anticipated:
   • Proposed source(s) of supply for new district:

   v. If a public water supply will not be used, describe plans to provide water supply for the project:

   vi. If water supply will be from wells (public or private), maximum pumping capacity: ________ gallons/minute.

d. Will the proposed action generate liquid wastes?  
If Yes:

   i. Total anticipated liquid waste generation per day: ______________________ gallons/day

   ii. Nature of liquid wastes to be generated (e.g., sanitary wastewater, industrial; if combination, describe all components and approximate volumes or proportions of each):

   iii. Will the proposed action use any existing public wastewater treatment facilities?  
If Yes:

   • Name of wastewater treatment plant to be used:
   • Name of district:
   • Does the existing wastewater treatment plant have capacity to serve the project?  
   • Is the project site in the existing district?  
   • Is expansion of the district needed?
iv. Will a new wastewater (sewage) treatment district be formed to serve the project site?  
   If Yes:
   - Applicant/sponsor for new district: 
   - Date application submitted or anticipated: 
   - What is the receiving water for the wastewater discharge?

v. If public facilities will not be used, describe plans to provide wastewater treatment for the project, including specifying proposed receiving water (name and classification if surface discharge, or describe subsurface disposal plans):

vi. Describe any plans or designs to capture, recycle or reuse liquid waste:

---

e. Will the proposed action disturb more than one acre and create stormwater runoff, either from new point sources (i.e. ditches, pipes, swales, curbs, gutters or other concentrated flows of stormwater) or non-point source (i.e. sheet flow) during construction or post construction?  
   If Yes:
   - How much impervious surface will the project create in relation to total size of project parcel?
     - Square feet or _____ acres (impervious surface)
     - Square feet or _____ acres (parcel size)
   - Describe types of new point sources.

iii. Where will the stormwater runoff be directed (i.e. on-site stormwater management facility/structures, adjacent properties, groundwater, on-site surface water or off-site surface waters)?
   - If to surface waters, identify receiving water bodies or wetlands:

   - Will stormwater runoff flow to adjacent properties?  

iv. Does proposed plan minimize impervious surfaces, use pervious materials or collect and re-use stormwater?  

f. Does the proposed action include, or will it use on-site, one or more sources of air emissions, including fuel combustion, waste incineration, or other processes or operations?
   If Yes, identify:
   - Mobile sources during project operations (e.g., heavy equipment, fleet or delivery vehicles)
     - Construction and delivery vehicles (during construction only)
   - Stationary sources during construction (e.g., power generation, structural heating, batch plant, crushers)
   - Stationary sources during operations (e.g., process emissions, large boilers, electric generation):  

g. Will any air emission sources named in D.2.f.(above), require a NY State Air Registration, Air Facility Permit, or Federal Clean Air Act Title IV or Title V Permit?  
   If Yes:
   - Is the project site located in an Air quality non-attainment area? (Area routinely or periodically fails to meet ambient air quality standards for all or some parts of the year)
   - In addition to emissions as calculated in the application, the project will generate:
     - Tons/year (short tons) of Carbon Dioxide (CO₂)
     - Tons/year (short tons) of Nitrous Oxide (N₂O)
     - Tons/year (short tons) of Perfluorocarbons (PFCs)
     - Tons/year (short tons) of Sulfur Hexafluoride (SF₆)
     - Tons/year (short tons) of Carbon Dioxide equivalent of Hydrofluorocarbons (HFCs)
     - Tons/year (short tons) of Hazardous Air Pollutants (HAPs)
h. Will the proposed action generate or emit methane (including, but not limited to, sewage treatment plants, landfills, composting facilities)? □ Yes □ No
   i. Estimate methane generation in tons/year (metric):

ii. Describe any methane capture, control or elimination measures included in project design (e.g., combustion to generate heat or electricity, flaring):

i. Will the proposed action result in the release of air pollutants from open-air operations or processes, such as quarry or landfill operations? □ Yes □ No
   If Yes: Describe operations and nature of emissions (e.g., diesel exhaust, rock particulates/dust):

j. Will the proposed action result in a substantial increase in traffic above present levels or generate substantial new demand for transportation facilities or services? □ Yes □ No
   i. When is the peak traffic expected (Check all that apply): □ Morning □ Evening □ Weekend
      □ Randomly between hours of _______ to _______
   ii. For commercial activities only, projected number of semi-trailer truck trips/day: _______
   iii. Parking spaces: Existing _________ Proposed _________ Net increase/decrease _______
   iv. Does the proposed action include any shared use parking? □ Yes □ No
   v. If the proposed action includes any modification of existing roads, creation of new roads or change in existing access, describe:

   vi. Are public/private transportation service(s) or facilities available within ½ mile of the proposed site? □ Yes □ No
   vii. Will the proposed action include access to public transportation or accommodations for use of hybrid, electric or other alternative fueled vehicles? □ Yes □ No
   viii. Will the proposed action include plans for pedestrian or bicycle accommodations for connections to existing pedestrian or bicycle routes? □ Yes □ No

k. Will the proposed action (for commercial or industrial projects only) generate new or additional demand for energy? □ Yes □ No
   i. Estimate annual electricity demand during operation of the proposed action:

   ii. Anticipated sources/suppliers of electricity for the project (e.g., on-site combustion, on-site renewable, via grid/local utility, or other):

   iii. Will the proposed action require a new, or an upgrade to, an existing substation? □ Yes □ No

1. Hours of operation. Answer all items which apply.
   i. During Construction:
      - Monday - Friday: 7:00 am to 7:00 pm
      - Saturday: NA
      - Sunday: NA
      - Holidays: NA

   ii. During Operations:
      - Monday - Friday: 24 hours
      - Saturday: 24 hours
      - Sunday: 24 hours
      - Holidays: 24 hours
m. Will the proposed action produce noise that will exceed existing ambient noise levels during construction, operation, or both?
    ☐ Yes ☐ No

If yes:
   i. Provide details including sources, time of day and duration:
      Temporary noise that exceeds the local ambient noise levels may occur during construction of the facility. Construction activities will be limited to 7:00 am to 7:30 pm on Monday through Friday; no noise exceeding ambient levels will occur after construction is complete.

ii. Will proposed action remove existing natural barriers that could act as a noise barrier or screen?
    ☐ Yes ☐ No
    Describe: ________________________________

n. Will the proposed action have outdoor lighting?
    ☐ Yes ☐ No

If yes:
   i. Describe source(s), location(s), height of fixture(s), direction/aim, and proximity to nearest occupied structures:
      ________________________________

   ii. Will proposed action remove existing natural barriers that could act as a light barrier or screen?
        ☐ Yes ☐ No
        Describe: ________________________________

o. Does the proposed action have the potential to produce odors for more than one hour per day?
    ☐ Yes ☐ No

If Yes, describe possible sources, potential frequency and duration of odor emissions, and proximity to nearest occupied structures:

p. Will the proposed action include any bulk storage of petroleum (combined capacity of over 1,100 gallons) or chemical products 185 gallons in above ground storage or any amount in underground storage?
    ☐ Yes ☐ No

If Yes:
   i. Product(s) to be stored:
   ii. Volume(s) per unit time (e.g., month, year):
   iii. Generally describe proposed storage facilities:

q. Will the proposed action (commercial, industrial and recreational projects only) use pesticides (i.e., herbicides, insecticides) during construction or operation?
    ☐ Yes ☐ No

If Yes:
   i. Describe proposed treatment(s):
      ________________________________

ii. Will the proposed action use Integrated Pest Management Practices?
    ☐ Yes ☐ No

r. Will the proposed action (commercial or industrial projects only) involve or require the management or disposal of solid waste (excluding hazardous materials)?
    ☐ Yes ☐ No

If Yes:
   i. Describe any solid waste(s) to be generated during construction or operation of the facility:
      • Construction: ___________________________ tons per __________ month (unit of time)
      • Operation: ___________________________ tons per __________ (unit of time)

   ii. Describe any proposals for on-site minimization, recycling or reuse of materials to avoid disposal as solid waste:
      • Construction: ________________________________
      • Operation: ________________________________

   iii. Proposed disposal methods/facilities for solid waste generated on-site:
      • Construction: ________________________________
      • Operation: ________________________________
s. Does the proposed action include construction or modification of a solid waste management facility? □ Yes □ No
If Yes:
  i. Type of management or handling of waste proposed for the site (e.g., recycling or transfer station, composting, landfill, or other disposal activities):

  ii. Anticipated rate of disposal/processing:
      • ________ Tons/month, if transfer or other non-combustion/thermal treatment, or
      • ________ Tons/hour, if combustion or thermal treatment

  iii. If landfill, anticipated site life: __________ years

t. Will proposed action at the site involve the commercial generation, treatment, storage, or disposal of hazardous waste? □ Yes □ No
If Yes:
  i. Name(s) of all hazardous wastes or constituents to be generated, handled or managed at facility:

  ii. Generally describe processes or activities involving hazardous wastes or constituents:

  iii. Specify amount to be handled or generated ______ tons/month

  iv. Describe any proposals for on-site minimization, recycling or reuse of hazardous constituents:

  v. Will any hazardous wastes be disposed at an existing offsite hazardous waste facility? □ Yes □ No
If Yes: provide name and location of facility:

If No: describe proposed management of any hazardous wastes which will not be sent to a hazardous waste facility:

E. Site and Setting of Proposed Action

E.1. Land uses on and surrounding the project site

a. Existing land uses:
   i. Check all uses that occur on, adjoining and near the project site.
   □ Urban □ Industrial □ Commercial □ Residential (suburban) □ Rural (non-farm)
   □ Forest □ Agriculture □ Aquatic □ Other (specify): Religious, public utilities, recreation, VFW
ii. If mix of uses, generally describe:
Agricultural, residential, service business, recreation, religious facility, social organization (VFW), public utilities (substation)

b. Land uses and covertypes on the project site:

<table>

</tbody>
</table>
c. Is the project site presently used by members of the community for public recreation? □ Yes □ No
l. If Yes: explain: ____________________________________________________________

d. Are there any facilities serving children, the elderly, people with disabilities (e.g., schools, hospitals, licensed
day care centers, or group homes) within 1500 feet of the project site? □ Yes □ No
If Yes,
1. Identify Facilities:
   VFW organization across Dryden Road
   ____________________________________________________________

e. Does the project site contain an existing dam? □ Yes □ No
If Yes:
1. Dimensions of the dam and impoundment:
   • Dam height: __________________________ feet
   • Dam length: __________________________ feet
   • Surface area: __________________________ acres
   • Volume impounded: __________________________ gallons OR acre-feet

li. Dam’s existing hazard classification:

lii. Provide date and summarize results of last inspection:

ii. Has the project site ever been used as a municipal, commercial or industrial solid waste management facility,
or does the project site adjoin property which is now, or was at one time, used as a solid waste management facility? □ Yes □ No
If Yes:
  i. Has the facility been formally closed? □ Yes □ No
     • If yes, cite sources/documentation:

lii. Describe the location of the project site relative to the boundaries of the solid waste management facility:

liii. Describe any development constraints due to the prior solid waste activities:

f. Have hazardous wastes been generated, treated and/or disposed of at the site, or does the project site adjoin
   property which is now or was at one time used to commercially treat, store and/or dispose of hazardous waste? □ Yes □ No
If Yes:
1. Describe waste(s) handled and waste management activities, including approximate time when activities occurred:

h. Potential contamination history. Has there been a reported spill at the proposed project site, or have any
remedial actions been conducted at or adjacent to the proposed site? □ Yes □ No
If Yes:
1. Is any portion of the site listed on the NYSDEC Spills Incidents database or Environmental Site
   Remediation database? Check all that apply:
   □ Yes – Spills Incidents database           Provide DEC ID number(s):
   □ Yes – Environmental Site Remediation database Provide DEC ID number(s):
   □ Neither database

lii. If site has been subject of RCRA corrective activities, describe control measures:

liii. Is the project within 2000 feet of any site in the NYSDEC Environmental Site Remediation database? □ Yes □ No
If yes, provide DEC ID number(s):

iv. If yes to (i), (ii) or (iii) above, describe current status of site(s):
v. Is the project site subject to an institutional control limiting property uses? □ Yes □ No
  - If yes, DEC site ID number:
  - Describe the type of institutional control (e.g., deed restriction or easement):
  - Describe any use limitations:
  - Describe any engineering controls:
  - Will the project affect the institutional or engineering controls in place? □ Yes □ No
  - Explain:

---

**E.2. Natural Resources On or Near Project Site** Refer to Figure 5 and Endnote 6.

a. What is the average depth to bedrock on the project site? >5 feet □ Yes □ No

b. Are there bedrock outcroppings on the project site? If Yes, what proportion of the site is comprised of bedrock outcroppings? 3% □ Yes □ No

c. Predominant soil type(s) present on project site:
   - Erie channery silt loam (EsB) 75%
   - Langford channery silt loam (LaS) 23%
   - Bath & Velica gravelly silt loam (BpC) 2%

d. What is the average depth to the water table on the project site? Average: 0.75 to 3 feet

e. Drainage status of project site soils: □ Well Drained: 3% of site
   □ Moderately Well Drained: 23% of site
   □ Poorly Drained: 75% of site

f. Approximate proportion of proposed action site with slopes:
   - 0-10%: 100% of site
   - 10-15%: ___% of site
   - 15% or greater: ___% of site

---

g. Are there any unique geologic features on the project site? □ Yes □ No

h. Surface water features.
   i. Does any portion of the project site contain wetlands or other waterbodies (including streams, rivers, ponds or lakes)? Refer to Figure 3 and Endnote 3. □ Yes □ No
   ii. Do any wetlands or other waterbodies adjoin the project site? □ Yes □ No
   If Yes to either i or ii, continue. If No, skip to E.2.i.

iii. Are any of the wetlands or waterbodies within or adjoining the project site regulated by any federal, state or local agency? □ Yes □ No

iv. For each identified regulated wetland and waterbody on the project site, provide the following information:
   - Streams: Name Classification
   - Lakes or Ponds: Name Classification
   - Wetlands: Name Classification
   - Wetland No. (if regulated by DEC):

v. Are any of the above water bodies listed in the most recent compilation of NYS water quality-impaired waterbodies? □ Yes □ No

---

If yes, name of impaired water body/bodies and basis for listing as impaired:

---

i. Is the project site in a designated Floodway? □ Yes □ No

j. Is the project site in the 100 year Floodplain? □ Yes □ No

k. Is the project site in the 500 year Floodplain? □ Yes □ No

l. Is the project site located over, or immediately adjoining, a primary, principal or sole source aquifer? □ Yes □ No
   If Yes:
   i. Name of aquifer: Principal Aquifer
m. Identify the predominant wildlife species that occupy or use the project site:

- Common Tompkins County species

Refer to Endnote 7.

n. Does the project site contain a designated significant natural community? □ Yes □ No
   If Yes:
   i. Describe the habitat/community (composition, function, and basis for designation):

   ii. Source(s) of description or evaluation:

   iii. Extent of community/habitat:
   - Currently: _______________ acres
   - Following completion of project as proposed: _______________ acres
   - Gain or loss (indicate + or -): _______________ acres

o. Does project site contain any species of plant or animal that is listed by the federal government or NYS as endangered or threatened, or does it contain any areas identified as habitat for an endangered or threatened species? □ Yes □ No

Refer to Figure 6 and Endnote 7.

p. Does the project site contain any species of plant or animal that is listed by NYS as rare, or as a species of special concern? □ Yes □ No

q. Is the project site or adjoining area currently used for hunting, trapping, fishing or shell fishing? □ Yes □ No
   If yes, give a brief description of how the proposed action may affect that use:

E.3. Designated Public Resources On or Near Project Site

a. Is the project site, or any portion of it, located in a designated agricultural district certified pursuant to Agriculture and Markets Law, Article 25-AA, Section 303 and 304? □ Yes □ No
   If Yes, provide county plus district name/number: TOMPS01

b. Are agricultural lands consisting of highly productive soils present? □ Yes □ No
   i. If Yes: acreage(s) on project site: The entire project area consists of Farmland of Statewide Importance = 35.00 acres
   ii. Source(s) of soil rating(s): USDA Natural Resource Conservation Service Soil Report

c. Does the project site contain all or part of, or is it substantially contiguous to, a registered National Natural Landmark? □ Yes □ No
   i. Nature of the natural landmark: □ Biological Community □ Geological Feature
   ii. Provide brief description of landmark, including values behind designation and approximate size/extent:

   d. Is the project site located in or does it adjoin a state listed Critical Environmental Area? □ Yes □ No
   If Yes:
   i. CEA name:
   ii. Basis for designation:
   iii. Designating agency and date:
e. Does the project site contain, or is it substantially contiguous to, a building, archaeological site, or district which is listed on, or has been nominated by the NYS Board of Historic Preservation for inclusion on, the State or National Register of Historic Places? Refer to Figure 7 and Endnote 2.

If Yes:
  i. Nature of historic/archaeological resource: ☐ Archaeological Site ☑ Historic Building or District
  ii. Name: Residence at 2265 Dryden Road was determined to be eligible for listing on the National/State Historic Register per CRIS.
  iii. Brief description of attributes on which listing is based:
  Historic Building (no further information is provided by CRIS)

f. Is the project site, or any portion of it, located in or adjacent to an area designated as sensitive for archaeological sites on the NY State Historic Preservation Office (SHPO) archaeological site inventory? Refer to Figure 7 and Endnote 3.

If Yes:
  i. Describe possible resource(s):
  _________
  ii. Basis for identification:
  (Note: Any additional information which may be needed to clarify your project)

h. Is the project site within five miles of any officially designated and publicly accessible federal, state, or local scenic or aesthetic resource? Refer to Figure 8.

If Yes:
  i. Identify resource: NYS Recreation Areas, Dryden Lake State Multiple Use Area, scenic trail, NYSDEC trails, National/State Historic Register sites
  ii. Nature of, or basis for, designation (e.g., established highway overlook, state or local park, state historic trail or scenic byway, etc.): Scenic trails, state parks, and recreation areas, historic sites
  iii. Distance between project and resource: ___________ miles.

i. Is the project site located within a designated river corridor under the Wild, Scenic and Recreational Rivers Program of NYCRR 666? Refer to Figure 9.

If Yes:
  i. Identify the name of the river and its designation:
  _________
  ii. Is the activity consistent with development restrictions contained in NYCRR Part 666? Refer to Figure 10.

If Yes: ____________________________

F. Additional Information
Attach any additional information which may be needed to clarify your project.

If you have identified any adverse impacts which could be associated with your proposal, please describe those impacts plus any measures which you propose to avoid or minimize them.

G. Verification
I certify that the information provided is true to the best of my knowledge.

Applicant/Sponsor Name Delaware River Solar, LLC
