**Subject:** Court Project

Jason, we spoke in a hallway somewhere -- in February I think. I mentioned that we were about \$10,000 short of the full cost to finish the courts. This is because when we did our financial agreement last summer I did not have an estimate in hand to replace the basketball backstops ( an installed price). They came in much higher than I expected. When we spoke you indicated that the town may be able to come with some additional funds (at least I think you offered that). We are close to getting this thing done, so I need to firm up how we are going to cover the 10K. Let me know as soon as its convenient if the town can cover an additional 2-5K of this additional cost to finish the project.

On a second issue, have been getting very quality and helpful cooperation from your recreations staff. I ask our attorney to draft a new MOU for Town use of the Montgomery Park facilities for rec. programming. I assumed that this was not on the top of your pile. I hope we will have something soon for you to review.

Best  
Mike
