

Town of Dryden
Dear Supervisor Leifer:

Thank you for your interest in Charter Communications' plans to expand its network in your community. As you know, Charter's build-out plans are filed with the New York State Public Service Commission (PSC) and subject to strict confidentiality.

Similarly, pursuant to our agreement with the PSC, these build-out plans ("bulk address information") can only be shared with Local Franchise Authorities if it is subject to a confidentiality agreement (see attached). As soon as the attached Non-Disclosure Agreement is executed and returned to Charter, we can begin the process of sharing information related to your community.

Please be advised that addresses appearing on the bulk address list for your community are subject to change on an ongoing basis. Inclusion on this list DOES NOT guarantee that an address or set of addresses will be built. The list of addresses you receive, therefore, is of very limited utility and should NOT be relied upon to predict whether service will be available at that address in the future. Nor should the list be used to guide municipal planning or inform public or private investment.¹

Network deployment is complex and subject to many variables including, but not limited to ground conditions, pole application approvals and make ready requirements, new development and a host of other issues. Charter is constantly engaged in the process of reevaluating and adjusting its deployment plans under the Merger Order. For example, the initial deployment plan filed in 2016 has changed significantly through the last modification in December, 2017. The plan will continue to change through the end of the deployment period and addresses will continue to be added and removed as a result of this process.

If you have any questions or concerns please feel free to contact me at 585-756-1326.

Sincerely,

A handwritten signature in black ink, appearing to read "Chris Mueller".

Chris Mueller
Director, Government Affairs
Charter Communications
