New Business

1) Trinitas Development:

- Proposed resolution To the Town Board:
 - Given that the latest Trinitas proposal ignores steep slopes, and the need for retaining vegetation, and the design covers most of the sensitive land in buildings and parking surfaces:
 - The Conservations Board recommends outright rejection of the Trinitas proposal.

2) Historical Conservation: should the conservation Board be involved in Historical Conservation?

- Proposed resolution to the Town Board:
 - Given the historical significance of the Freese Road Bridge, and the requests of the residents of Varna to retain a one-lane bridge:
 - The Conservation Board strongly recommends refurbishment of the Freese Road bridge, and its retention as a one lane bridge, rather than replacement with a new two lane bridge, for the sake of conserving some of Dryden's history, even if future maintenance costs are involved.

3) Discussion for an action plan by the Town Board based on the NRCP.

- Any Other business.
