

Proposed Resolution
Setting A Recycling Policy for Town of Dryden Government Buildings
June 13, 2019

WHEREAS the Town of Dryden is working towards bronze certification as a Climate Smart Community, and

WHEREAS increasing the rate of recycling reduces energy use and makes efficient use of limited resources, and people are more likely to recycle when it is easy and convenient, and

WHEREAS placing recycling bins next to all trash receptacles makes recycling easier, provides a visual reminder to recycle items when possible, and reminds employees that they work for a government that is committed to the goals of the Climate Smart Communities (CSC) program,

NOW THEREFORE BE IT RESOLVED that the Town of Dryden establishes a policy requiring placement of a labeled recycling bin wherever there is a trash bin, and

BE IT FURTHER RESOLVED THAT the Town will implement that policy by providing recycling bins in all common areas in local government buildings (such as kitchens and copy rooms) and at every employee's desk.
