

4FT High Output Strip Light

LED 54583361

33W 4900lm Strip Light

Specifications

The ETi 4' non-Linkable LED StripLight offers exceptional performance as a high quality replacement for traditional fluorescent light sources. Lasting more than 5 times longer than fluorescent alternatives, these strip lights reduce energy and maintenance costs. The strip lights are 120-277V, UL listed for use in damp locations, and suitable for installations from -4° F to 95° F. Warranty 5 years.

KEY FEATURES & BENEFITS

- Two-way Installation: Flushmount and Suspended
- High Output and High Efficiency: 33 W & 4900 lm
- 120-277 Volt, 5000K, 80 CRI
- Rated life 50,000 hours
- 10FT Power Cord and One Pair 10FT Aircraft Cable
- Battery backup compatible (battery backup current is no more than 150mA)

FIXTURE DIMENSIONS

This light source meets restrictions on hazardous substances.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. For FCC Part 15 user information, please see www.etissl.com/fcc15b

APPLICATION INFORMATION

Designed to be used anywhere a traditional fluorescent fixture is used. Typically used in workshops, garages and utility rooms. Other common applications in commercial, office, retail, restaurants, schools, hospitals and hotel/motel locations.

IMPORTANT SAFE PRACTICES

PLEASE READ CAREFULLY AND FOLLOW ALL INSTRUCTIONS FOR YOUR OWN SAFETY

IMPORTANT: An un-switched AC power source of 100V AC to 277V AC is required.

- This device is designed for use in fixtures listed for dry and damp locations.
- CAUTION: Make sure all electrical connections conform to the National Electrical Code and all

applicable local regulations.

CAUTION: Do not let power supply cords touch hot surfaces.

CAUTION: Do not mount near gas or electric heaters.

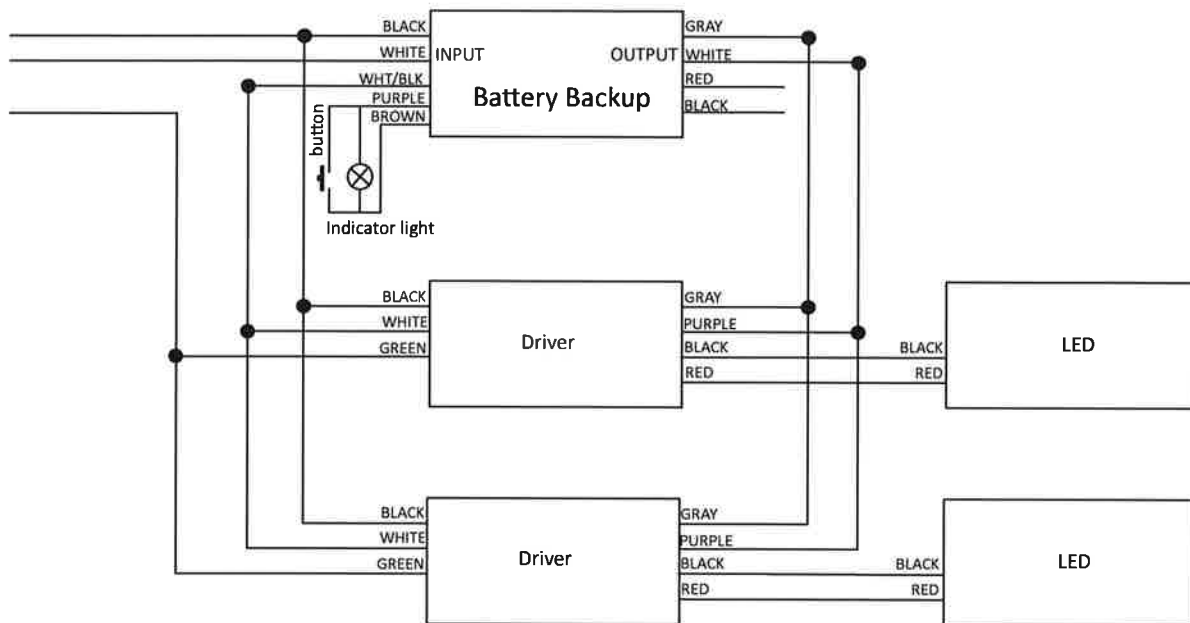

- CAUTION: Battery is rechargeable LiFePO4 type and must be recycled or disposed of properly.
- Do not use this emergency driver with accessory equipment other than recommended by manufacturer. Failure to follow this may cause an unsafe condition. Servicing should only be performed by qualified service personnel.
- Do not use this emergency driver for other than intended use. Equipment should be mounted in locations and at heights where it will not readily be subjected to tampering by unauthorized personnel.

4. Color rendering index/Ra

4' High Output Strip Light Series:

The LEDS multi-volt LED Strip Lights offer exceptional performance as a high quality replacement for traditional fluorescent light sources. Lasting more than 5 times longer than fluorescent alternatives, these strip lights reduce energy and maintenance costs. Engineered to be installed as a direct wire fixture, an optional mounting plate is also available.

Non-Dimmable Light Features:

- Two-way installation: Flushmount & Suspended
- 10' Power Cord
- One pair 10' Aircraft Cable
- 45 year life or 50,000 hour of continuous use
- UL Listed Damp Location
- Suitable for installations from -4°F to 95°F
- 5 - Year Warranty

Dimmable Light Features:

- Installation as portable/direct wire
- Linkable via cable or end-to-end connector
- 45 year life or 50,000 hour of continuous use
- UL Listed Damp Location
- Suitable for installations from -4°F to 95°F
- 5 - Year Warranty

This device complies with Part 15 of the FCC Rules. Operation is subject to the following conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. For FCC Part 15 user information, please see www.etiled.us/fcc15b

2' Strip Light Series:

The LEDS, multi-volt, LED Strip Lights offer exceptional performance as a high quality replacement for traditional fluorescent light sources. Lasting more than 5 times longer than fluorescent alternatives, these strip lights reduce energy and maintenance costs. Engineered to be installed as a direct wire fixture, an optional mounting plate is also available.

Features:

- Direct wire, 0-10V Dimming
- 1800 Lumens,
- Knock-outs for sensors or direct wire conduit
- 45 year life or 50,000 hour of continuous use
- UL Listed Damp Location
- Suitable for installations from -4°F to 95°F
- Replaces 34W fluorescent lamps
- 5 - Year Warranty

This device complies with Part 15 of the FCC Rules. Operation is subject to the following conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Features and Specifications:

Pole - The pole shaft is fabricated from hot rolled carbon steel having a minimum yield of 55,000 PSI and conforms to ASTM A500 grade C requirements. The shaft construction is a single piece of formed steel welded longitudinally. The hand hold is located 1' above the pole base. A ground lug is provided standard.

Base Cover - A full base cover is provided which encapsulates the base plate and anchor bolts to provide a clean transition from pier to pole.

Anchor Base - The anchor base is fabricated from a structural quality hot rolled carbon steel plate that has a minimum yield strength of 36,000 PSI. The anchor base telescopes the pole shaft and has a circumferential weld on the top and bottom.

Finish - A Super Durable Polyester powder coat finish is electrostatically applied in our state of the art paint facility. Standard colors available: Black, Bronze, US Green, White. Custom colors available upon request. Galvanizing and T-Guard treatments available upon request. Additional warranty extensions available with these treatments.
