Be Part of the Collective Voice of the Town of Dryden: Take the Survey!

Dryden, N.Y. – The Town of Dryden is currently updating its 2005 comprehensive plan. To gather public input, a community survey has been posted at: [Dryden2045.org/survey](https://dryden2045.org/survey)

"To do effective planning, the Town must hear from residents. We encourage residents to take the survey and express their priorities for the Town's future," stated Supervisor Jason Leifer.

The Town will be receiving completed surveys until August 31, 2020. To have a paper copy mailed to you, contact the planning department at planning@dryden.ny.us or 607-844-8888 x216. Paper copies can also be picked up (and dropped off once completed) at the following locations: Dryden Town Hall, Dryden Village Hall, Freeville Village Hall, Varna Community Center, or Ellis Hollow Community Center.

About the Dryden 2045 Comprehensive Plan Update

In April of 2019 the Town of Dryden Town Board requested that the Town Planning Board manage a general update to the Town Comprehensive Plan. The Town Planning Board is serving as the Steering Committee for the project.

Comprehensive planning is a process that documents community goals and aspirations in terms of community development. The result is called a comprehensive plan and both expresses and regulates public policies on land use, housing, recreation, transportation, and public infrastructure such as utilities. The planning process includes a thorough analysis and inventory of current data showing land development trends and issues, community resources, and public needs. Community residents participate in and guide the process through interviews, meetings, workshops, surveys and hearings. Comprehensive plans guide future growth for municipalities and inform ordinances such as zoning and subdivision codes.
