

6 November 2020

Jason Leifer
Supervisor, Town of Dryden

Supervisor Leifer,

During the October 28th meeting of the Dryden Recreation and Youth Commission, members discussed the software needs of the Recreation Department. The commission supports the recommendation to transition from RecPro to RecDesk to better serve the department's needs and those who participate in Town of Dryden Recreation programs.

Regards,

[Updated RecDesk Quote - Dryden NY.pdf](#)

Dryden Town Board Members,

I recently received support from the DRYC to change our current software system from RecPro to RecDesk. I have attached the invoice from RecPro and the quote from RecDesk to show that we will be reducing our annual expense while providing a more user friendly and effective system on both the consumer and administrative side.

With approval from the town board I would like to proceed with making the change.

Thank you,
Andrew
