*** SPECIAL NOTICE ***
(With-In One Week)

This is to inform you that the Hamlet of VARNA, NY will be rehabilitating the sewer mainline in your neighborhood using a method called Cured-in-Place Pipelining. This system will provide a new, joint-less sewer pipe connection for your area that minimizes root and water infiltration problems, improves flow, and provides for a more structurally sound pipe without the need for excavation. To accomplish this, **there will be a temporary disruption of sewer service to your residence or business for a period of approximately 8 hours.**

This interruption in sewer service will tentatively occur for **one day** Between January 8th - January 23rd.

You will receive a 48 or a 24-hour pre-notification on the day(s) prior to actually rehabbing the pipe that your home is connected to. This notification is to make you aware of what will be taking place. The above date is subject to change.

During this period your property's sewer service connection will be completely sealed off from the Town's mainline in the street. **Please limit the use of water going down your drains to an absolute minimum and DO NOT USE WASHING MACHINES OR DISWASHERS.** If you must shower, leave the water in the tub until your service has been restored. Any sump pumps connected to the sewer system must be disconnected and/or discharged elsewhere to avoid possible damage to our liner, or backups in your basement. **Failure to follow these instructions may cause a backup into your property.**

During certain phases of the operation, you may detect an odor. Odors are most likely to occur in houses or buildings with a faulty, or non-existent trap. In most cases, any odors can be minimized by pouring several gallons of water down your sinks, showers, toilets, etc, and by opening your windows.

If you have any questions or concerns during the course of our installation period; please do not hesitate to ask for the Site Supervisor or Crew Foreman at the job site.

If you have any questions or concerns regarding this project; please contact any one of the following during business hours, Monday-Friday

General Contractor – National Water Main Cleaning Co

Main Office (315)-624-9520
