DRYDEN TOWN CLERK

Theresa Fulton

[REDACTED]
Dryden, NY 13053

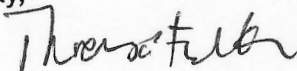

7 September 2024

To Whom It May Concern:

I am writing in support of the creation of a recreational trail that will be discussed at the public hearing on September 19, 2024. My friends and my family use the current trails frequently and consider them a terrific asset to the community. Every Sunday friends and I walk several miles on one of the trails, weather permitting, and almost every Saturday my daughter and I bike on the Dryden trail, either the Dryden Lake section or the end from Dryden to Freeville.

There are always many people on the trails, including families with kids on bicycles or in strollers, people walking or biking, people walking dogs, etc. Given the obesity problem in our country it is great that our community has this wonderful option to get out and exercise. Any addition to the current trails will absolutely be utilized and enjoyed by the community. Please continue expanding this terrific asset.

Sincerely,

Theresa Fulton
