 **Morris Road Conceptual Plan - 08.22.2024.pdf**

Good morning Kim and Calvin,

As part of the town of Dryden's engineering review, TG Miller, the town's contracted engineer, has requested that we send our plans to the local fire district for review. Please find the plans attached. Feel free to reach out if you have any questions. My cell is (845) 844-0918.

Kind regards,
Brian

Hi Calvin,

I have set up a shared link for the file, let me know if this works.

Hey Calvin,

I wanted to follow up on this, do you have comments on our plans?

Best,
Brian

Nope. Everything looks good. Everyone is just asking for training and a walk through. Is there a blanket or something to put on the panels in an event of a fire?

Hi Calvin,

We typically do a walkthrough of the project site once it is constructed. As far as a fire blanket goes we can look into keeping one on site.

Brian
